Dear Friends,

Re: New plans after this summer

Please inform us of your interest regarding new guide courses.

(1) The courses in Kina-saffron Shu brewery and the Settaya town

From the beginning of our presentation, we wanted to guide these area the most, Therefore, if you would want to participate in the "Lecture and tour in Saffron and Settaya", we will hold both the lecture and the tour again,

(2) The course in "Furusato-no-Mori forest and park"

We are planning to guide "Furusato-no-Mori forest and park" as the next course. The Niigata prefectural museum of Modern art, adjacent to the forest and park, attracts many art fans, and many statues stood in the park help visitors understand Nagaoka by itself.

The lectures will be held after August, and tours will be held after September.

We are asking members when it is convenient.

(3) We will plan not only the style of "tour with lectures" but also a casual style completing in shorter time.

We are looking forward to seeing your reply.

Yours sincerely,

Kasuga Masatoshi
